

**WASHINGTON – Congressman John B. Larson (CT-01)** released the following statement on the Supreme Court’s decision to uphold the Affordable Care Act:

“The Supreme Court decision today is a great victory for children with pre-existing conditions, for women who have been unfairly discriminated against, and the start to providing a solid groundwork for ensuring that all Americans can get the care they need.

“Much work still needs to be done to make healthcare affordable and accessible to all, but hopefully today’s ruling means we can set the partisan fights aside and move forward as a nation.”
